

Launch of  
vCell's  
New Agency

# GeneTex

GeneTex is committed to the production of the highest quality, validated antibodies and to aiding scientific advancement through its full scale facilities.

Founded in 1997, they cater to researchers doing cancer related studies, immunology, regulation of cell cycle, DNA repair and replication.

## Quality Antibodies, Quality Results

GeneTex has been supporting the research community with a well known collection of consistently reliable monoclonal antibodies and now with their new line of rabbit polyclonal antibodies which are generated using innovative antigen design and target sequence analysis.

- Cell/Tissue Lysates
- Isotype Control
- Primary Antibodies
- Proteins/Peptides
- Research Reagents/Kits
- Secondary Antibodies
- Serum Products
- Slides
